

INDUSTRIAL  
TRANSFER &  
STORAGE

Since 1984 **Industrial Transfer and Storage** has been moving, handling, and installing heavy equipment. Over the years **ITS** has transitioned into a full service industrial contractor doing everything related to turnkey plant relocations, strategic projects and single machine moves.

**ITS** will provide all services required to move, install, set up and maintain your entire plant or just one piece of production equipment to keep your operations running strong.

Our management team has extensive experience in manufacturing, facilities engineering, project management, and related construction. This gives **ITS** a true understanding of the complexities associated with specialized industrial equipment installation and relocation projects.

As a global Industrial Contractor, **ITS** has successfully completed projects all over North America including international projects involving services to/from Canada, Mexico, Europe, Puerto Rico, Asia and Denmark.

**ITS** is committed to safety and is constantly improving the companies fully compliant safety programs to ensure its policies meet or exceed those set forth by its customers. Our Safety programs also adhere to State and Federally regulated requirements.

**ITS** is a Full Service Contractor providing a full range of industrial trades and services including:

- **Project Management**
- **Rigging/Heavy Rigging**
- **Millwright Services**
- **Dismantling & Install**
- **Layout and Design (CAD)**
- **Custom Fabrication/Welding**
- **Steel Erection**
- **Building Modifications**
- **Custom Crating**
- **Trucking**
- **Storage**
- **Maintenance Services**
- **Electrical**
- **Mechanical**
- **Demolition**
- **Transportation**
